as follows:

Lot 13, Concession 10

TOWN OF MARKHAM
REGIONAL MUNICIPALITY OF YORK

SCHEDULE 'B' TO BY-LAW 2004-100

STATEMENTS OF HERITAGE ATTRIBUTES

The John Wurtz (Wurts) house is recommended for designation under Part IV of the Ontario Heritage Act as a property of cultural heritage value and interest containing the following heritage attributes:

Historical Attributes

The John Wurtz House is believed to have been built c.1835 by John Wurtz. John Wurtz received the patent to Lot 13, Concession 10 in Nov. of 1802. In 1830 he sold the E ½ 47 acres to Joseph McNeely for 87.10 pounds. In 1843 John Wurtz sold the W ¾ to his son Elias Wurtz (b. 1821). The remaining 150 acres remained in the Wurtz family until 1857 when it was sold to Francis Pike.

John Wurtz, (1766-1855) his wife (Westbrook) and his family of eight children arrived in Niagara from Pennsylvania in 1799. It appears that the Wurtz family along with families of Abraham Moore, John Marr and Issac Westbrook traveled together reaching Markham Township in 1802. According to the Berczy Census of 1803 John's wife had passed away within a year of arriving in the township, leaving him with 7 children. John was married a second time to Mrs. John Marr (Barbara Brooks) about 1808. This union produced another ten children. (Over the years the Wurtz name was changed in spelling to Wurts.) It is believed that the stone house was constructed c.1835, according to local assessment.

George McPhillips Map of 1853 illustrates the dwelling in the same approximate location as it exists today.

Elias Wurts was born April 17, 1821 in Markham and on Dec. 28, 1843 was married to Mary Burkholder. It was after his marriage that John Wurts, his father, sold the W ¾ to Elias for 250.0 pounds. John died in 1855 and was buried in the family cemetery at the back of the property overlooking the Little Rouge River. His first wife was probably the first burial in this family cemetery in 1802, although no marker exists for her now. Elias sold the property to Francis Pike in 1857. It was on the north part of this property that the school for section # 22 was constructed. Descendants of Francis Pike continue to reside and farm this property.

Architectural Attributes

The John Wurtz House is a square 1-storey, Regency Style house constructed out of fieldstone with a hipped roof. The windows on the building are wood, double hung and of a 12/2 pane division. It is believed that the windows were originally of a 12/12 pane division. The west façade, facing Reesor Road is 3 bays wide with a center doorway flanked by two 12/2 windows. On the south elevation, the façade is an asymmetrical four bay façade.

The house features large basement windows with an 8/4-pane division.

It is believed that the south façade was the main entrance to the building.

The east elevation features a newer small frame addition. Also visible on this façade is an original brick chimney.

Contextual Attributes

The Elias Wurtz House is an important contributor to the historic agricultural landscape along the rouge river and is one of the earliest reminders of the Loyalist settlement along the Rouge Valley in the vicinity of Locust Hill.

Significant Heritage Attributes

1. All wood double hung windows on all elevations with multi-paned windows;
2. All original exterior doors and storm doors on the west, east and south elevations;
3. The fieldstone wall with brick voussiors;
4. The original roofline;
5. Brick Chimney
6. Frame addition on east elevation;
7. The original footprint of the front part of the dwelling.
